Forum Description

We think of great leaders as famous people....and some are. Inspiring others to follow.

There are however other ways to lead. As members of the Reformed Tradition we take very seriously coming together as “councils of the church” to discern God’s spirit for the whole people of God. Leadership can be found in ‘reliable presence’, the hand of a friend, the extra effort of a teacher, the determination to be our best selves and to encourage others to “lift their sights” to be the people God calls us to be. What does it mean to be in charge? Look forward to sharing some ideas and engaging in conversation during this challenging season.
